SUMMARY

I am a skilled Java full-stack developer with over 3 years of experience, specializing in Java Spring Boot, microservices architecture, and ReactJS. At Lexiscrypt Business Solutions, I developed scalable applications, resolved complex technical challenges, and collaborated with cross-functional teams to deliver innovative solutions. My career began at Datapoint Info Solutions, where I gained foundational expertise in back-end development using Java. Additionally, my freelance graphic design experience enhanced my creativity and client management skills. Committed to continuous learning, I stay updated on industry trends to deliver efficient, end-to-end software solutions.

EDUCATION

Dr K V Subba Reddy Institute of Technology
Bachelor of Technology - Electronics and Communication Engineering

Kurnool
2017

EXPERIENCES

LexiScript Business Solutions Pvt. Ltd.
Software Developer

Hyderabad
2022 – 2024

As a dedicated software developer at Lexiscrypt Business Solutions, I demonstrated strong problem-solving abilities, attention to detail, and a deep understanding of software engineering principles. I was responsible for designing, and developing, scalable applications while working closely with cross-functional teams to ensure project goals were met on time.

Key responsibilities included:

- Developing and maintaining both front-end and back-end systems, with a focus on Java Spring Boot and microservices architecture.
- Collaborating with stakeholders to gather requirements and translate them into functional software solutions.
- Utilizing Git for version control, ensuring code integrity, and managing the software development lifecycle.
- Implementing best practices in software development, including code optimization, testing, and performance improvements.
- Leading troubleshooting efforts and resolving complex technical issues promptly.

With a passion for continuous learning, I consistently aimed to enhance my technical expertise, keeping up with the latest industry trends and applying new technologies to improve the development process.

Datapoint Info Solutions Pvt. Ltd.
Software Developer

Hyderabad
2020 – 2021

In my role as a fresher software developer at Datapoint Info Solutions, I focused on developing back-end services using Spring Boot, gaining essential skills in Java-based web application development. Working closely with senior team members, I learned to contribute effectively to software projects and build a foundation in software engineering.

Key responsibilities included:

- Assisting in the development of back-end services with Spring Boot, gaining hands-on experience in building and deploying web applications.
- Collaborating in requirements gathering sessions and helping document technical specifications.
- Supporting troubleshooting efforts and gradually building debugging and problem-solving skills under supervision.

With a passion for continuous learning, I consistently aimed to enhance my technical expertise, keeping up with the latest industry trends and applying new technologies to improve the development process.

Freelance Graphic Designer Graphic Designer

Hyderabad
2017 – 2020

As a freelance graphic designer, I provided creative solutions for various clients, enhancing their visual branding and communication through tailored graphic designs. This role allowed me to develop a versatile skill set, adapt to diverse client needs, and manage multiple projects independently. *This experience helped me hone my creative skills, learn client management, and develop a keen eye for design aesthetics.*

PROJECTS

KRIS HR Management | *ReactJS, Spring Boot, MySQL*

- KRIS HR Management Platform is a user-friendly solution designed to streamline HR operations such as employee management, attendance tracking, payroll, and performance reviews. It offers a modern, intuitive interface, real-time reporting, and scalable features that suit businesses of all sizes. KRIS simplifies recruitment, onboarding, leave management, and more, providing a seamless experience for HR teams and employees alike.

Hyderabad Council of Human Welfare | *HTML, CSS, JavaScript*

hchw.org

- Developed and designed a website aimed at promoting Child Education and Women Empowerment initiatives for the Hyderabad Council of Human Welfare organization. Utilized creative skills to craft an engaging online platform, aligning with the organizations mission and objectives.

360Peers | *HTML, CSS, JavaScript*

360peers.com

- Initiated the development and deployment of a website dedicated to spotlighting the comprehensive Business Consulting services provided by 360Peers Consultant. Employed strategic planning and execution to establish an online platform tailored to effectively showcase the organizations expertise and offerings.

ACHIEVEMENT

Full Stack Development Course – Digital Lync by Edify

2024 - Pursuing

- Master full-stack development with Digital Lync by Edify, learning both front-end and back-end technologies. The course covers React for front-end, Spring Boot for back-end, for databases such as MongoDB and SQL, and use Git for version control, offering hands-on experience in building real-world applications. This comprehensive program equips me with the skills needed to thrive in today's tech landscape.

Achieved a Certificate from Robotryst IIT Delhi

2013

- Received participation certificate from Robotryst, organized by IIT Delhi, following active involvement in a workshop during the first year of engineering studies. Demonstrated commitment to exploring robotics and fostering technical skills within a collegiate setting.

Technical SKILLS

JAVA: core JAVA, J2EE, JDBC

Java Technologies: Maven, Spring Boot, Microservices, Junit5 & Mockito

DBMS: SQL Queries

Front-end: HTML, CSS, JavaScript, ReactJS

Tools: Eclipse, IntelliJ idea, VS Code, MySQL Workbench, MongoDB Compass, Postman

Graphic Designing: Adobe Photoshop, Adobe Illustrator
